Reg No	: Name:	_
	APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY FIFITH SEMESTER B.TECH DEGREE EXAMINATION, DECEMBER 2017	
	Course Code: CE361	
	Course Name: ADVANCED CONCRETE TECHNOLOGY (CE)	
Max. N	Tarks: 100 Duration: 3	Hours
	PART A	
	Answer any two full questions, each carries 15 marks.	Marks
1 a)	Explain the classification of aggregates.	(5)
b)	List the advantages and disadvantages of artificial aggregates.	(5)
c)	Explain segregation and bleeding in concrete.	(5)
2 a)	What are the effects of properties of aggregate on concrete?	(5)
b)	In hot weather condition blended cements are advised for construction. Justify the statement.	(4)
c)	Why admixtures used in Concrete? What are the different types of Chemical admixtures?	(6)
3 a)	Explain the chemical and physical process of hydration.	(8)
b)	Explain the process of concreting.	(4)
c)	Properly manufactured M Sand is superior to river sand. Justify the statement. PART B	(3)
	Answer any two full questions, each carries 15 marks.	
4 a)	Explain any one method of proportioning of concrete.	(8)
b)	Differentiate between compressive strength and characteristic compressive strength.	(3)
c)	Define Creep. What are the factors affecting creep?	(4)
5 a)	Explain the procedure of determination of modulus of elasticity of concrete	(8)
b)	List different types of shrinkage. What are the factors affecting shrinkage	(4)
c)	What is the advantage of using silica fumes in manufacturing of concrete?	(3)
6 a)	What is the importance of compressive strength, tensile strength and flexural strength in concrete?	(6)
b)	What are the effect of creep on concrete?	(3)
c)	List some mineral admixtures along with their advantages PART C	(6)
	Answer any two full questions, each carries 20 marks.	
7 a)	What are the factors affecting durability?	(6)
b)	What do you meant by self compacting concrete? What are its advantages?	(6)
c)	Explain any two non destructive tests in concrete.	(8)
8 a)	Explain how can we reduce sulphate attack in concrete.	(6)
b)	What do you meant by reinforcement cover? How it is measured?	(6)
c)	Explain light weight concrete. How it is manufactured. What are its advantages	(8)
9 a)	Explain alkali Silica reaction. Write notes on concrete in sea water.	(8)
b)	How roller compacted concrete is prepared? What are its applications?	(6)
c)	Write notes on under water concreting and mass concreting.	(6)
